

Elfwork Marketing Services

Your virtual marketing team will provide assistance with the design, writing, and editing of marketing communications.

As a bonus, we have experience in marketing research and analysis and can test your concepts and the effectiveness of your ads.

When your marketing staff is stretched too thin, we *are* your virtual team.

These days, there are always more work to do, tighter deadlines to meet, and projects to complete than full-time staff can handle.

Elfwork Marketing Services can help. We'll come on-site to learn about the project, then we'll go away and leave your staff to do the work they need to do while we complete our assignment.

With more than a decade of experience in marketing, Elfwork Marketing Services can do a wide range of projects, including: designing, writing, and editing marketing communications.

Let us be your virtual marketing team.
