loaded with visual images, much of which is gathered from television, newspapers and the Internet."

If it looks at all familiar to you, that's because it probably is. Marks believes that irony is the new language of mankind, and allows us to draw our own conclusions. More work can be found on the web at www.michaelmarks.com .

The third member of "Three Cities" is Mark Watkins, of Athens. Watkins has recently started an arts studio and marketing business called, "Elephant Arts" and has two shows a month scheduled for the last quarter of the year.

According to his biography, the biggest challenge for Watkins is focusing on one project and not half-doing a dozen. It also states that he is working on more small pieces with a

bit of color from oil pastels. His current favorite character is the amiable but deadly octopus. Since the creative process has a lot to do with the destructive impulse, the new character has a special place in his heart.

regret about something but it's never enough to stop them. When I write about them, the extremes of evil people can be very clearly drawn even though there are many subtle layers to their characters." You will see this evil in "A Grave Mistake" and understand Stella's success as a writer.

*A Grave Mistake* by Stella Cameron, MIRA Books, Hard-back

An ordinary man is found dead in the French Quarter. Just another in the string of unfortunate losers caught in the wrong place at the worst of times, and not the kind of incident that would bring New Orleans homicide detective Guy Gautreaux back from his leave of absence in Toussaint. Or is it?

Though he's still recovering from the tragedy that cut short his career and nearly ruined his life, Guy has finally found peace and a sense of purpose in Toussaint. He's also found Jilly Gable, a Cajun beauty who's threatening to seal his reluctant heart.

Hometown girl and owner of

All Tarted Up , the finest pastry shop in the parish, Jilly is an upbeat young woman who can't understand why Guy is so reluctant to act on their obvious attraction to one another. Jilly is desperate to find the love of the family who abandoned her as a child, so when the wife of powerful New Orleans antique dealer Sam Preston arrives in Toussaint, claiming to be her mother, Jilly is all too willing to love and forget.

Guy's not sure why he's taken an almost distinct dislike Jilly's new family. Could it be that the wealthy "Daddy" Preston ad his family are satisfying a need in Jilly's life he — albeit unconsciously—wants to fill? For her sake, he agrees to take a more positive attitude toward them.

Then, slowly and methodically, the evil that began in New Orleans begins to envelop Jilly and guy must reveal the truth to save her from a killer no one could have suspected. Connecting the dots between the Big Easy and Toussaint isn't easy, but as Guy's investigation begins to overlap one being pursue by his ex-partner, they discover that they are up against more than a collection of twisted degenerates. They

face a group of dangerous and desperate thugs each prepared to kill and kill again to protect their empire.

Guy has all but cinched his case when Jilly vanishes in the Quarter. He now knows who the players are but will that knowledge be a case of "too little, too late"?

This LP book, "A Grave Mistake" may not be for everyone. It's a realistic look at the dark, perverse side of life. It's gritty and raw. You silently cheer when good overcomes so grave an evil. This central, timeless theme, in literature and life, where god overcomes evil and the villain takes a fatal fall is beautifully crafted in "A Grave Mistake."
